Charalampos Photiou

Digital Marketing Executive · Web Development & Paid Media

Limassol, Cyprus • +357 96 425378 • charfotiou@gmail.com • LinkedIn • xaralamposg9.github.io/portfolio

PROFESSIONAL SUMMARY

Web developer and digital marketing executive at Fameline Holding Group since 2023. Hand-codes custom production websites in VS Code with Git/GitHub and AI-assisted workflows (Claude Code), builds on WordPress (Elementor Pro, WPBakery, Divi), and maintains MODX Revolution sites — a portfolio of 50+ live websites. Builds workflow automations in n8n connecting Outlook (Microsoft Graph), Trello and the Claude API. Runs paid media on Google Ads (Search to Performance Max), email marketing in Mailchimp and Brevo, SEO, and social — backed by Google and AI certifications.

EXPERIENCE

Digital Marketing Executive (Web Development & Paid Media) — Feb 2025 – Present
Fameline Holding Group · Limassol, Cyprus

- Hand-code custom production websites in VS Code with Git/GitHub and AI-assisted workflows (Claude Code) — six live corporate sites shipped without a CMS.
- Design, build, and maintain WordPress sites (Elementor Pro, WPBakery & other builders); maintain MODX Revolution sites across the group's brands.
- Manage a portfolio of 50+ live web properties across the group's brands — updates, performance, uptime, and security; 31 selected sites are showcased with live links on my portfolio.
- Built the marketing team's task system in n8n: requests sent to the marketing@ mailbox (Microsoft Graph) become Trello cards automatically, sorted by company and type with keyword rules plus the Claude API, assigned by round robin or by who was addressed, with follow-up replies added as card comments.
- Added supporting n8n workflows (assignment emails, a per-person team overview board, weekly and monthly Excel reports with on-time rates, error alerts), migrated all Microsoft Planner tasks to Trello, and set up 5-minute uptime monitoring for 12 company websites.
- Set up tracking & analytics with Google Tag Manager and Google Analytics 4 (GA4).
- Optimise page speed across the portfolio — flagship sites score 90+ on mobile Lighthouse performance (fhg.global 94, albaflux.com 90).
- Plan and run paid campaigns on Google Ads (Search, Display, Video, Demand Gen & Performance Max), Meta & LinkedIn — 440K+ impressions and 16K+ clicks at a 3.6% average interaction rate.
- Own the group's social media calendar and email marketing in Mailchimp and Brevo — campaigns to B2B lists of up to 8,000+ maritime contacts, top sends reaching ~50% opens and ~53% click-through.
- Grew the company's LinkedIn audience from ~1,000 to 7,500+ targeted maritime-industry followers.
- Deliver digital marketing for the group's flagship events (East Med Marine & Offshore Exhibition, Fameline Offshore Sailing Regatta) and CSR campaigns (Movember, World Cancer Day).

Junior Digital Marketing Officer (WordPress Development) — Sep 2023 – Feb 2025
Fameline Holding Group · Limassol, Cyprus

- Built and updated WordPress websites and landing pages for the group's brands.
- Created graphics and scheduled social media posts supporting campaigns and group events.

Multimedia Graphic Designer (Internship) — Sep 2022 – Dec 2022
MindLab · Limassol, Cyprus

- Built WordPress sites end to end and produced product photography and social content for client campaigns.

SELECTED WORK

12 · WordPress + Elementor | 13 · MODX Revolution | 6 · Custom-coded (VS Code)

18 live corporate websites designed and built — on WordPress + Elementor (**Fameline Holding Group**, **Fameline Mission Solutions**, **OneNet Group**, **MIE Group**, **Euploia Partners**, **Global STSS**, **NorthTide**, **Kozy Developers**) and hand-coded in VS Code (**Albaflux**, **Seaflux** and the **Cargo Logistics** brands). I also **maintain 13 MODX Revolution sites** (Fameline Energy, Sheerline, HSS Marine Safety, Euploia Drydocks, and more). These 31 sites are the selection I showcase from the 50+ web properties I manage — all with live links: xaralamposg9.github.io/portfolio
